What ID Thieves Do

- Locate identifying data
 - ❑ Social Security Number
 - ❑ Driver's License
 - ❑ Home address, telephone number
 - ❑ Mother's maiden name
 - ❑ Or just misuse of *handle* (screen name) for forged messages
- Create new credit cards, bank accounts
- Default on loans in victim's name
- Ruin reputations, credit records
- **Victims have to prove their innocence**

5

Copyright © 2013 M. E. Kabay, D. J. Blythe, J. Tower-Pierce & P. R. Stephenson. All rights reserved.

Consequences for Victims

- Credit-card expenses relatively easy to correct IFF
 - ❑ Victim checks statement immediately and
 - ❑ Reports questionable transactions within time limit
- Bank-account thefts much more difficult to correct
 - ❑ Money stolen is client's, not bank's
 - ❑ Client has great difficult recovering funds
- Bill-collectors hound victims relentlessly
- Bad credit records difficult to correct, ruin plans, cause loss of jobs or interfere with hiring
- Criminal accusations put victims at serious risk of erroneous arrest or deportation
- Victims may be nailed for child support of total strangers

Identity Theft and Assumption Deterrence Act (18 USC §1028)*

- Identity theft fastest growing form of fraud today
 - ❑ Criminals use SSN, public records to establish line of credit in victim's name
 - ❑ Debts assigned to victim
 - ❑ Burden of proof of *innocence* placed on victim
 - ❑ Catastrophic results on innocent people
- Felony
 - ❑ Up to 20 years jail

Citibank (Nov 1, 2004)

Dear Citibank Customer,

At Citibank, we take security very seriously. As many customers already know, Microsoft Internet Explorer has significant 'holes' or vulnerabilities that virus creators can easily take advantage of.

At Citibank, we maintain your personal information and data according to strict standards of security and confidentiality as described in the Terms and Conditions that govern your use of this site. Online access to your account portfolio is only possible through a secure web browser.

In order to further protect your account, we have introduced some new important security standards and browser requirements. Citibank security systems require that your computer system is compatible with our new standards.

This security update will be effective immediately. Please [sign on](#) to Citibank Online in order to verify security update installation. Failure to do so may result in your account being compromised.

Phishing Harms Firms

- Harmful at many levels
 - ❑ Threatens effective communication
 - ❑ Undermines goodwill and trust
- Customers
 - ❑ Direct harm from stolen IDs, passwords
 - ❑ Could perceive business as not taking adequate steps to protect users
- Diminishes value of brand
 - ❑ Could affect shareholders
 - ❑ Possibility of liability for failure to exercise due diligence in protecting trademark

Anti-Phishing Measures

Proclaim, Protect, Pursue

- Proclaim in all correspondence the use of an official mark (e.g. TrustedSender stamp)
- Protect all messages, Web pages with the mark
- Pursue all impostors – actively seek reports of phishing

Used with permission (and thanks).

Public Education

- Use digitally-signed documents ONLY
 - ❑ Don't release unsigned documents
 - ❑ Get consumers used to idea that an unsigned document is an untrustworthy document
- Use public education campaigns
 - ❑ "No one will ever ask you to confirm your password"
 - ❑ "Don't believe alerts that address you as 'Dear Customer.'"
 - ❑ Link to APWG documents; e.g., http://www.antiphishing.org/consumer_rec.html

Possible Solutions

- Strong Website authentication
- Mail server authentication
- Digitally-signed e-mail with desktop verification
- Digitally-signed e-mail with gateway verification

Government Involvement

- Criminals forge government IDs for social engineering
- Some agencies are lax in verifying identity when issuing identifying documents
- Some government agencies post confidential data on Web without adequate safeguards
 - ❑ Include unnecessary details such as SSN
- Theft from USPS system can provide valuable documents
 - ❑ Applications, new credit cards, new documents

Responding to ID Theft

- Prevent theft: restrict access to your SSN and other personal data
 - ❑SSN may be required by SSA, IRS employer, financial institution, lender
 - ❑Corner store or video rental should NOT be given SSN
- NEVER give out credit-card or other personal data over the phone to someone *who has called you*. Ask for written documents.
- Shred papers that include confidential info before discarding.
- Destroy computer media before discarding.
