

Access Instructions to IS240 Virtual Systems

Student Login

1. Open Web browser (SSL Explorer has been successfully tested with IE 6,7,and 8, Firefox, and Safari on Windows)
2. If in the Forensics Lab go to <https://192.168.201.101:1195>
-- if anywhere else go to <https://72.237.56.20:1195>
3. Click “Continue to this Website”
4. Login with username:
IS240 (not case sensitive) and
password: **is240** (case sensitive)
5. The student will then choose the machine labeled with their last name
6. Accept ALL Java certs
7. The RDP session will launch
8. Enter the default password of **P@ssw0rd** (case sensitive)
9. Change your password when prompted
10. When finished with session click **Start | Log Off**
11. When the session closes click the green icon at the top right of the SSL Explorer page to close the agent and then select **Logoff**
12. This will return you to the login page and you can close your browser.

Other logins:

SQL administrator:

user: **sa** (case sensitive)

password: **P@ssw0rd** (case sensitive)

(The student can check the “Remember this Password” box to avoid having to login every time.)
