

Fish weren't biting today.

This will be the first year we're not going to Hawaii because of COVID.

Normally we don't go because we can't afford it.

When all this pandemic stuff is over, I still plan to wear a mask. It hides the perpetual look of annoyance I have for most people.

My new social distancing outfit just arrived from amazon

I once almost choked to death while eating food. I did my own research and discovered that I am not alone. Thousands of people choke every year while eating, and hundreds of those people die. Thats why I don't feed my kids. Its dangerous. Now plenty of people will point out that food supposedly "prevents starvation," and that might be true, but Its not fair to completely ignore all the dangers food poses, like choking, allergies, gingivitis, and garlic breath. I'm just saying, do your own research and decide what you think is best for your kids. If you choose to give your kids potentially deadly food, thats your problem, but as a parent, I don't think the government has any right to tell me that I need to feed my kids.

Everyone who received the first smallpox vaccine in 1798 has died. Makes you think.

I see people wearing winter coats and hats. What a bunch of sheep! LOL! I did my own research and found out that only 1500 people die from hypothermia in the US per year. That's only 0.0005% of the population. They live in fear of something that 99.9995% of people won't die from. It gets better, a lot of the people who died from hypothermia were wearing coats and hats, and they still died! Coats don't work!

DAY 211: Today was incredibly exciting.

It seems to me that you are judging me for not wearing a mask.

2020 can't get any worse...

May:

"Alright, does everyone have sound?"

So I purchased a music-notation face mask to augment my collection thinking that it would look sharp, but my expectations fell flat. After wearing it for an interval, I developed a staff infection and a clef chin. I should have known buying it would lead to treble. It wound up not being a major problem but only a minor inconvenience. I do have a diminished opinion of the product though. Not sure if I should throw it out because I don't know how long it will take to decompose.

We are still battling Covid 19 and the next thing is here already.

The NILE Virus, type C

Virologists have identified a new Nile virus - type C

It appears to target those who were born between 1940 and 1970

Symptoms:

- 1. Causes you to send the same message twice.
 - 2. Causes you to send a blank message.
- Causes you to send a message to the wrong person.
 - Causes you to send it back to the person who sent it to you.
 - 5. Causes you to forget to attach the attachment.
 - 6. Causes you to hit SEND before you've finished.
 - 7. Causes you to hit DELETE instead of SEND
 - 8. Causes you to SEND when you should DELETE

It is called the C-NILE virus!

And if you can't admit to doing the above you've obviously caught the mutated strain, the D-NILE virus.

JUST BE CAREFUL BECAUSE PEOPLE ARE GOING CRAZY FROM BEING IN LOCK DOWN!

- Metually, I've just been talking about this with the microwave and toaster while drinking coffee and we all agreed that things are getting worse.
- I didn't mention anything to the washing machine as it puts a different spin on everything.
- Certainly not to the fridge as it is acting cold and distant.
- In the end, the iron straightened me out as it said everything will be fine, no situation is too pressing.
- The vacuum was very unsympathetic...told me to just suck it up, but the fan was more optimistic and hoped it would all soon blow over.
- The toilet looked a bit flushed when I asked its opinion and didn't say anything but the doorknob told me to get a grip.
- The front door said I was unhinged and the curtains told me to...you guessed it...pull myself together.

THOUGHTS AT THE END OF 2020

Here are 12 things to consider as we get closer to closing the door on one of the most horrible years of our lifetime:

- 1. The dumbest thing I ever bought was a 2020 planner.
- 2. I was so bored I called Jake from State Farm just to talk to someone. He asked me what I was wearing.
- 3. 2019: Stay away from negative people. 2020: Stay away from positive people.
- 4. The world has turned upside down. Old folks are sneaking out of the house & their kids are yelling at them to stay indoors!
- 5. This morning I saw a neighbor talking to her dog. It was obvious she thought her dog understood her. I came into my house & told my cat. We laughed a lot.
- 6. Every few days try your jeans on just to make sure they fit. Pajamas will have you believe all is well in the kingdom.

- 7. Does anyone know if we can take showers yet or should we just keep washing our hands?
- 8. This virus has done what no woman has been able to do. Cancel sports, shut down all bars & keep men at home!
- 9. I never thought the comment, "I wouldn't touch him/her with a 6-foot pole" would become a national policy, but here we are!
- 10. I need to practice social-distancing from the refrigerator.
- II. I hope the weather is good tomorrow for my trip to the Backyard. I'm getting tired of the Living Room.
- 12. Never in a million years could I have imagined I would go up to a bank teller wearing a mask & ask for money.

You people are spending far too much time at home.
